PLACE ACQUIRED		REQUIREMENT NO.	RD
DATE ACQUIRED		REFERENCES	

SOURCE EVALUATIONS ARE DEFINITIVE. APPRAISAL OF CONTENT IS TENTATIVE

1. During the last three nights of May 1955, MIG aircraft flew practice sorties over the city of Lodz. * 25X1
2. Air raid sirens of the toadstool variety, mounted on house roofs, were set up and tested at the end of May 1955 in the Polesie and Stare Miasto sections of Lodz. 25X1
3. All factories in the Lodz area were supplied with air raid defense equipment by the end of May 1955. Civil defense teams were given training by the Red Cross and the Soldiers' League.
4. The military installation or maneuver area at Rembieszow (N51-30, E18-55) near Lodz, was given up by the military authorities sometime before the end of June 1955. Working parties of the Communist youth organization were engaged in repair tasks and in working the soil as projects connected with the forthcoming World Youth Festival. Although these assignments were obligatory, the youths did not apply themselves to the work and it was not expected that the project would be completed by the end of 1955. Since no machinery was available for the job, the labor was entirely manual. 25X1

25X1

* Formerly Litzmannstadt
